Subject: Nawi message to SPK Regulatory

Michael J and Mike N;

I participated in the Nawi Fed-family team meeting on Bay-Delta yesterday. I will send some brief notes in a little while. In the mean time, David specifically asked that I convey to both of you the following BDCP-related questions/requests:

\* What is the status of the State-Fed MOU? Have there been any further discussions?

\* When coordinating regulatory matters related to BDCP --especially with the State-- David Nawi asked to be included. This request arose during a discussion of the potential State-Fed MOU on regulatory understandings and Karen Schwinn's comment that EPA has received a letter from Jerry Meral

suggesting monthly State-Fed regulatory agency coordination meetings.

\* David would like the BDCP NEPA/408/404 meeting today to result in a uniform understanding and "meeting of the minds" on what is required and the way forward. He would like this understanding to be clearly described and articulated in writing.

Tanis
